

OUTBURSTS OF EVERETT TRUE

REPORTS SEVEN MINE GUARDS, ONE WOMAN AND A MAN DEAD
Walsenburg, Col., April 28.—That seven mine guards are dead, one woman and one man wounded was the statement made by the sheriff's office following a long distance survey of the country around the McNally mine

of the Colorado Fuel & Iron Co., captured by 200 coal mine strikers late yesterday.

Fires blazed in the camps the greater part of the night and it is believed the boarding house, bunk house, tippie and shaft house have been burned or dynamited.
